

SUMMER INTERNSHIP

Alabama
Colon &
Gastro, P.C.

Alabama Colon & Gastro, PC created the Summer Internship Program in 2017 to provide high school and college students a chance to learn more about medical careers. The program allows students to gain experience in a medical office setting, shadowing opportunities with our providers and gain knowledge about medicine and the field of gastroenterology. This is a paid internship with the expectation that students work at least 15 hours a week during the summer from May-August. Our goal is to help mentor these students and encourage them to not only pursue a degree in the medical field, but also to stay in the state of Alabama to provide healthcare to our community. **Please note: Our office is closed for Memorial Day and 4th of July.**

Due by February 15

ELIGIBILITY:

- Must be at least 17 years of age
- Resident of the state of Alabama
- Rising High School Senior or College Student
- Willing to work at least 15 hours a week during the summer (May-August)
